

Uniform Dispenser provides automatic vending of smaller uniform items

Uniform Dispenser provides staff with 24/7 secure automated access to smaller type uniform items

This system is ideal for smaller and folded items such as scrub wear, chef wear, aprons, lab-coats, towels, ties, and other items etc.

Uniform Dispenser is a secure cabinet consisting of 88 compartments (8 drawers each of 11 compartments). System will serve 176 staff with a single refill.

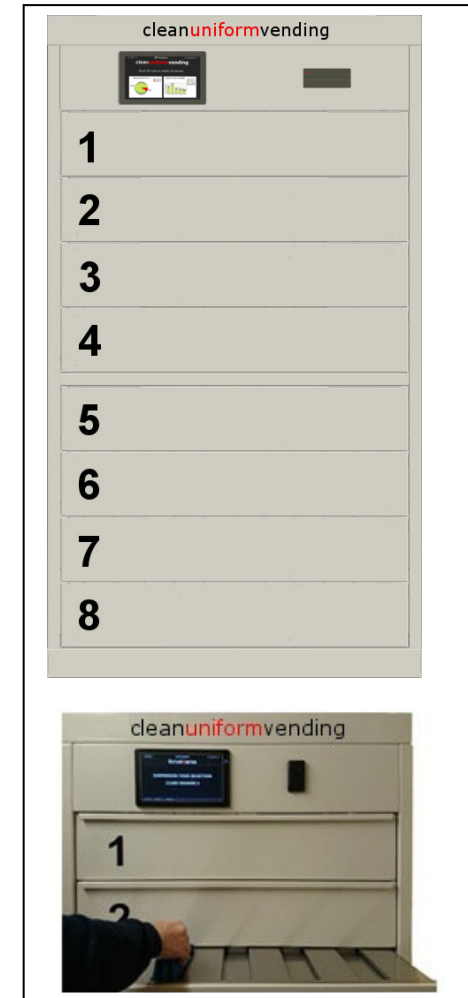

In the idle situation all drawers are locked preventing access to the stored items.

Using their ID-card and touch-screen staff can select the stocked item they require.

Once an item is selected only the appropriate drawer and compartment is opened. The uniform item can then be taken from the drawer as shown opposite. The drawer is then closed and the dispenser is ready for the next user.

Receiver unit (optionally) available to enforce credit control - staff can only take a predefined number of items.
